a meeting of experts to discuss the situation and outlook. It was agreed that this proposition was subject to further discussions within the Agency, looking toward an ultimate recommendation for the DCI's consideration. DD/I commended the graphics in the current weekly report on South Vietnam. briefed on what has been learned about the capabilities of U. S. attack aircraft in Vietnam to collect photography. There is a considerable amount of photography available and we are currently surveying its extent. DCI noted that the collection of adequate photography is essentially a DOD problem. He suggested an analysis of the number of U. S. aircraft actually carrying cameras as compared with the total number of sorties flown. DD/S reported on meetings yesterday with also briefed on the Indonesian situation and outlook. DD/S reported on meetings yesterday with a management expert. was briefed on the Agency's procurement and auditing systems. agreed to join with a few of his staffers in helping the IG with a forthcoming survey of Agency procurement programs. DCI recommended that every effort be made to ensure hat himself remain involved in this work with us. He also suggested that DD/S call and ask about the availability of a who used to work	WIOTHING WICE	ting of 29 October 1965	ω	
experts to discuss the situation and outlook. It was agreed that this proposition was subject to further discussions within the Agency, looking toward an ultimate recommendation for the DCI's consideration. DD/I commended the graphics in the current weekly report on bouth Vietnam. Driefed on what has been learned about the capabilities of U. S. attack aircraft in Vietnam to collect photography. There is considerable amount of photography available and we are currently surveying its extent. DCI noted that the collection of adequate photography is essentially a DOD problem. He suggested an analysis of the number of U. S. aircraft actually carrying cameras as compared with the total number of sorties flown. DD/S reported on meetings yesterday with also briefed on the Indonesian situation and outlook. DD/S reported on meetings yesterday with as briefed on the Agency's procurement and auditing systems. agreed to join with a few of his taffers in helping the IG with a forthcoming survey of Agency procurement programs. DCI recommended that every effort be made to ensure that himself remain involved in this work with us. He also uggested that DD/S call and ask about the availability of a who used to work		of OCI gave a background briefing on A	Aden.

today to be briefed on our estimative programs and procedures. The DCI said he would like to meet today.	²⁵ 25X1
DD/St-T reported that a total	\neg
DD/S&T reported that a technical committee reviewing	
had held its first meeting yesterday and was virtually unanimously	_
enthusiastic about the prospects. The committee hopes to have a final report available at the end of November.	
DD/S&T reported on the enthusiasm and good work done by the group of space consultants yesterday. They addressed the prospects for Soviet competition with the U.S. in getting a man on the moon It was agreed if the Soviets are in fact competing, they will probably	
undertake the project in a completely different way than that being planned by the U. S. at this time.	•
DD/P noted that he would be traveling departing on 31 October and returning on 10 November.	25X1
At DCI inquiry, DD/P explained the status of a	25X1
